

Welcome to Meme Lordz

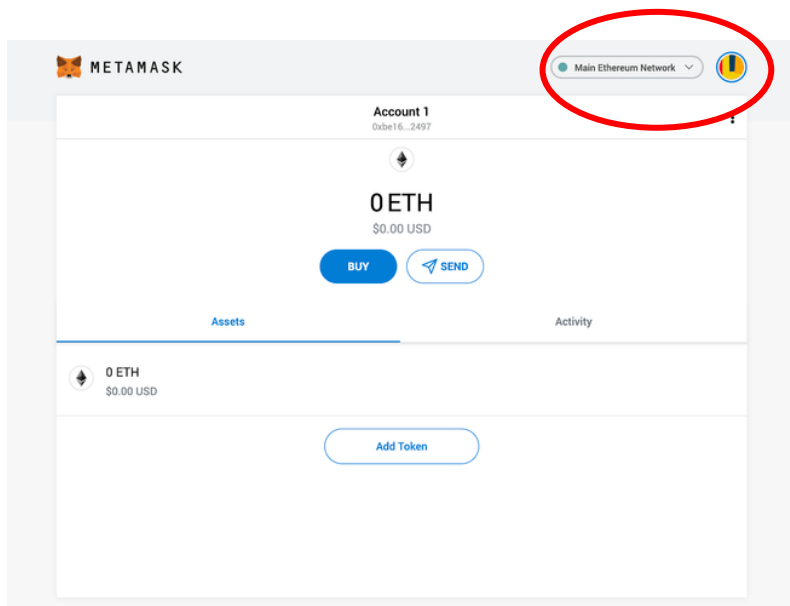

To be able to play Meme Lordz you will need a MetaMask wallet, this is where your save file will be stored, and it is also needed for minting if you choose to mint NFTs. The minting component of the game is completely optional, it is also not required to be a holder of \$lordz tokens to play the game.

Below is a guide to setting up a MetaMask wallet to play Meme Lordz. We strongly recommend watching this video before playing, it explains everything below and much more about the game mechanics.

1. Setting up a MetaMask wallet to play Meme Lordz

2. Go to: <https://metamask.io/download/> and download the correct version of MetaMask for your browser.
3. Next, create a wallet.
 - a. Write down the backup seed phrase somewhere secure (preferably not on an Internet-connected device)
 - b. Without this phrase, your funds can't be recovered if your device is damaged or lost
 - c. Finally, confirm your seed phrase by following the on-screen instructions
4. Once MetaMask is all installed and your wallet is ready you will need to swap over to the **Binance Smart Chain** Network, to do this we need to access settings.

5. On the Settings page, navigate to the Networks menu

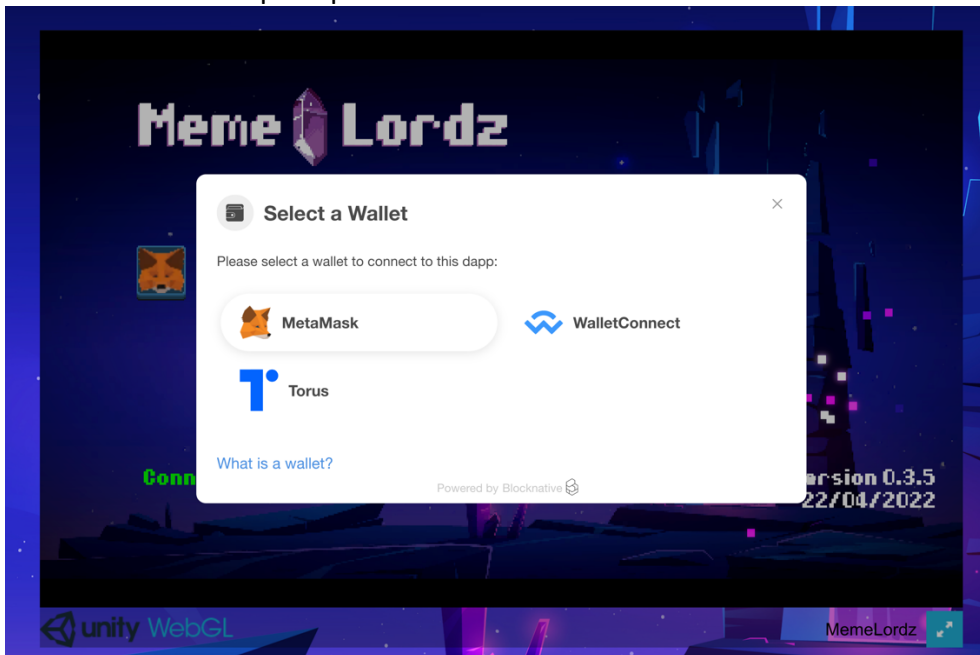

6. Click Add Network in the top-right corner to manually add **Binance Smart Chain** Mainnet. Enter these details into the corresponding fields.

Network Name: Binance Smart Chain
New RPC URL: <https://bsc-dataseed.binance.org/>
ChainID: 56
Symbol: BNB
Block Explorer URL: <https://bscscan.com>

7. Hit save and you are ready to go.
